Re: No Further Action Determination
Plains at Stevens Facility Oil Spill
Clarke County, Mississippi

Dear Mr. Schoen:

The Mississippi Department of Environmental Quality (MDEQ) has completed a review of the response and cleanup activities that occurred on September 17, 2014 at the Stevens Facility in Clarke County, Mississippi.

Our review indicates that your response and cleanup activities were prompt, proper, and satisfactory, and therefore MDEQ requires no further response and/or cleanup activities at this site at this time. If cleanup standards change or additional data becomes available for the site then MDEQ will notify the appropriate parties of the need for any additional response and/or cleanup actions. These actions will be consistent with our need to protect human health, welfare, and/or the environment.

If you have any questions or comments regarding this matter, please contact me at (601) 961-5231.

Sincerely,

A handwritten signature in black ink, appearing to read "Ernie Shirley", written over a horizontal line.

Ernie Shirley, Chief
Emergency Response Branch
