

**Location Maps - [Anomaly No. 41- Kerr McGee Occurrence, Southern Powder River Basin District, Converse Co., Wyoming, USA](#)****Latitude & Longitude (WGS84):** 43° 5' 17" North , 105° 43' 3" West**Latitude & Longitude (Decimal Degrees):** 43.0880555556 , -105.7175**Latitude & Longitude (Degrees plus Decimal Minutes):** 43° 5.2833333333', -105° 43.05'

These map resources refer to external websites, and as such links are outside of the control of mindat.org they may from time to time fail to work, some may also not be as accurate as we would wish.

**Important Disclaimer:** This locality information is for reference purposes only. You should never attempt to visit any sites listed in mindat.org without first ensuring that you have the permission of the land and/or mineral rights holders for access and that you are aware of all safety precautions necessary.

**Map Location Accuracy:** The coordinates listed for many locations are general regional coordinates (not accurate) and should not be relied upon for locating localities (eg with a GPS).

**Map Scales:** The maps scales shown below may be the scales of the original map data (eg 1:50000 Landranger Maps) and NOT the scale as they may appear on your screen. Not all map scales listed below may be available for every location, in some cases links may default to another scale – there may be only one scale available for some places. Many sites may share same data, but you can choose which you prefer to use.
