

ASPECT:
 The Airborne Spectral Photometric Environmental Collection Technology (ASPECT) aircraft conducted a screening level assessment to evaluate the unreported or undetected releases of hazardous materials or contaminants over the Corpus Christi, Victoria and Port Lavaca areas, Texas on March 11, 2021. During this flight, ASPECT detected 1-butene and butadiene. The screening level results from ASPECT were compared to the ASPECT list of Texas Commission on Environmental Quality (TCEQ) short-term Air Monitoring Comparison Values (AMCVs) and found no exceedances of the short-term AMCVs.
