St. Joseph's, Marty Indian School Floor Plans and Sampling Locations  
 1989 Asbestos Inspection and 2013 TBA Phase II Inspection

Only one interior sample (ceiling tile mastic) was taken (at entrance) due to health and safety issues: live pigeons roosting; pigeon feces, extreme mold, odor, deteriorating floor and ceiling conditions. EPA WAM Stephanie Metz was notified of condition. Photographs were taken and included in Appendix. One XRF reading was taken at exterior window. Based on results, composite soil samples were collected at each external wall.

 1989 Asbestos Inspection and 2013 TBA Phase II Inspection

Did not sample in the basement due to 20+ live pigeons roosting; pigeon feces, extreme mold. Photographs were taken and included in Appendix. Building has health and safety issues. EPA WAM was notified on 9/25 of intention not to sample. Cleaning supplies and paint were stored in basement. Photographs provided in Appendix. Sub-basement was not accessed.
