Removal Action

Administrative Record File

Index

Released: 09/16/2022

## **About the Administrative Record**

This administrative record file contains the documents that the U.S. Environmental Protection Agency (EPA) is currently using to identify removal activities appropriate to the Supply Creek Asbestos removal site, in Hoopa, Humboldt County, California. It is presented in electronic format.

EPA welcomes questions and comments on documents contained in the administrative record file. Please call 1-800-231-3075.

## **What is an Administrative Record?**

An administrative record is a collection of documents that forms the basis for an agency's decision, in this case the selection of a response action at a Superfund site.

Under section 113(k) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA), the U.S. Environmental Protection Agency (EPA) is required to establish an administrative record for every Superfund response action and to make a copy of the administrative record available at or near the site. The administrative record must be reasonably available for public review during normal business hours. Questions regarding the maintenance of the administrative record file should be directed to:

Elaine Chan, Administrative Record Coordinator, U.S. EPA (SFD-7-5), 75 Hawthorne Street, San Francisco, CA 94105-3972, Phone: (415) 972-3128.

## **How to obtain copies of administrative record documents:**

Individuals may copy any documents contained in the administrative record file or request copies of the documents by calling the Regional Records Center at (415) 947-8717. The administrative record is also viewable on <https://semspub.epa.gov/src/search>.
